

DEI: Key Findings and Advantages

Disability Equality Index (DEI) top scoring companies will share how they used the DEI as a roadmap to become more inclusive. Participating brands will discuss why they chose to take the DEI, their initial expectations and key findings. They will also share their top five DEI generated workplace initiatives and their successful outcomes.

Roadmap to Mental Wellness

The goal of Disability:IN's Roadmap to Mental Wellness in the Workplace is to inspire action, improve workplace productivity and impact the well-being of millions of employees and their families

Supplier Diversity – Leading business Transformation with Disability Inclusion

Corporate Session - Provide thought leadership and best practices on corporate Supplier Diversity initiatives

Supplier Session - Share benefits of DOBE certification. Hear testimonials from certified disabled business owners

Neurodiversity and Talent Acquisition

To be successful in sourcing and acquiring talent with disabilities, it is important to find the right resources. Companies indicated that by working with talent sourcing partners and others—often people with disabilities—and taking the time to learn, they find better matches for the company and more meaningful job opportunities for candidates.
